

Dan Eslinger

Vice President of Precision and Vehicle Electronics

Dan Eslinger is the Vice President of Precision and Vehicle Electronics at CNH Industrial. He is responsible for delivering user-friendly manual, automated and semi-autonomous vehicle functions across both our agriculture and construction segments.

Mr. Eslinger joined CNH Industrial in 2021. Prior to this appointment, he held increasing positions of responsibility from 2010 – 2021 across industries including Digital Critical Infrastructure, Tier-1 Automotive Infotainment R&D and In-Flight Connectivity and Entertainment. Mr. Eslinger served John Deere from 2003 – 2010, where he finished as Global R&D Manager of John Deere StarFire GNSS Receiver & Network Development. The early years of his professional career were spent in consultancy and startups working across Geospatial Information Systems, Natural Language Artificial Intelligence and Multimedia.

Dan Eslinger holds an MBA from the University of Southern California and a Bachelor of Science degree in Geomatics Engineering from the University of Calgary.
